Next dates for 2023

Let's not think about it until early 2023.

Christian suggested to target a date in June/July for Schärding: the project "Summer of Respect" will be carried out there again, and he thinks it would fit in well:

"Summer of Respect" was a series of events initiated by ReKI employee Carmen Tomandl and the social committee of the city of Schärding - see

<https://www.facebook.com/profile.php?id=100083036961329>.

The application text could look something like this: "With the "Multi-Lokale-Tour" we invite Dâsige, Zuagroaste and Multilokale to a respectful and open getting to know each other".

social media - Survey

Ines and Christian have an idea for sharing with our network via social media, and Ines has already created a great post for it on Canva:

We ask people what their favorite places are in the country, meeting places in the city, etc., or what they each miss about the other place.

The goal is to get people in our network talking through comments. Good idea from Ines: we could then also comment right away and thus support the reach of the post, and start the exchange.

Christmas special?

On Thu 15 Dec it's not sure yet if it fits for everyone: some are not in the Innviertel during the week, but some can't make it on the Dec weekend either.

Christian creates a survey for a date, also for between Christmas and New Year's Eve.

Ines suggested the Italian "Mimmo" in Ried .

Maria Hamann, and cooperation with the Dorf.Labor

Maria would like to organise a "Youth Day" at her Dorf.Labor. The aim is to invite people between 18 and 30 to find out what their needs are for their life in the countryside and to develop strategies or ideas together. Another goal is to invite people to join the core team of the Dorf.Labor.

Additional:

- Target: 10-15 participants;
- 28 or 29 December
- 10 a.m. - 5 p.m.

She is looking for support from us for workshops, moderation and/or that we take care of the participants. Especially for the moderation she would like someone else to do it, because she would also like to be in the role of a participant.

Program so far

- Arrive, introduce
- An exercise in "understanding the common good", or interconnectedness, interdependence?
- Possibly input OKH
- Input MichaelInbach, to the project Dorf.Labor and the carpenter's workshop
- - eat -
- Open up the topic of "needs."
- then cluster

- and a cosy end;
- and also (continuously or individually) tours on site

What's next?

We are interested in supporting Maria here.

Christian invites Susi, Nadine, Maria, Dani and Ermes to a signal group

Note: with Dani the 28th does not go already times!

Vegan Festival Verena

Verena is working with friends on the project to organize a vegan festival for about 300/400 people next summer. At the moment they are considering the city of Haag (near Linz) as a location, but could also imagine doing something in the Innviertel. They are in contact with the organizers of the Woodstock of Brass Music, and Verena has a contact from Christian to vegan vegetable growers who also like to support festivals.

They are happy about help:

either we can contribute to the planning, host a workshop/stand on site, or help out on site

In addition, she still creates date proposals in the team for the festival itself, and for planning meetings, which she sends to us. The festival itself is planned for August 2023.
